The Kingston Hospital Foundation *Thanks You* as we approach 30 Years of Community Support!

The Kingston Hospital Foundation was incorporated in 1982 by a group of individuals who believed wholeheartedly that the hospital needed individual and corporate support to grow and to continue to fulfill its mission. Today that belief is still true. The financial support of The Kingston Hospital Foundation is an investment in "Quality Health Care for Our Community." These vital services need support. Every donation to The Kingston Hospital Foundation provides assistance in the continuation, improvement, and expansion of health care services for patients within Ulster County and its surrounding communities.

Please call the Foundation office for information on supporting these life-changing services at The Kingston Hospital:

- **Advanced Imaging Services at The Louis Greenspan Center for Advanced Imaging**

- **Cardiology Services**
- **Diabetes Education Center**
- **Dialysis Center**
- **Emergency Department**
- **Family Birth Place**
- **Health Care Education & Training**
including resources at the Landsman Library
- **Helen & Amos Newcombe Intensive Care Unit**
- **Wound Healing Center**

Each and every gift to the Foundation is a generous display of the donor's belief in keeping services vital and available to the community and in support of the mission of The Kingston Hospital — to serve the health care needs of all.

To show your support, with a gift of any amount, contributors can donate online (www.FoundationUpdate.org), or simply call The Kingston Hospital Foundation office at 845.334.2760 for memorial or honor gifts, estate planning, or naming opportunities.
